The Power of one single idea. Million Dollar Home Page

Let's take a look at how some entrepreneurs amass a fortune from just one idea.

This has got to be one of the most silly, yet brilliant million-dollar ideas!

Back in 2005 when Alex Tew, the founder of MillionDollarHomePage.com, came up with this million-dollar idea, he was only 21, just preparing to start his first semester in University.

At that time, he was thinking of a way to pay for his school fees, and he began by asking himself a simple question, "How can I become a millionaire?"

Just twenty minutes later, he had his answer: Sell one million pixels of advertising space on a website for \$1 each.

After he launched his website, he managed to sell all one million pixels in just 5 months to make \$1 Million! Incredible!
